EFS-1 digital film insert

EFS-1 and its two batteries (good for several hundred shots)

EFS-1 being inserted into e-port

e-port (note PCMCIA connector, can be inserted directly into a PCMCIA slot for download)

e-port inserted into e-box for "in the field" download onto CompactFlash cards (Type I/II)

EFS-1 and e-box

EFS-1 inserted into camera

Photoshop plugin transferring three images

Three images transferred and ready for saving

A final Silicon Film image

Silicon Film
